No. 42.—The following resolution of the Government of India is published:—

FINANCE DEPARTMENT.

Bombay.

For July, 1st 1923.

No. F-1316-R/177.—The Secretary of State in Council has been pleased to make certain changes in the Study Leave Rules provided by him in Council with reference to Fundamental Rules and published with the Resolution by the Government of India in the Finance Department, No. F-20 (2) C.B.R/1923, dated the 4th February 1923. The amendments are published as an annexure to this Resolution.

ANNEXURE.

AMENDMENTS TO THE STUDY LEAVE RULES ENFORCED BY THE SECRETARY OF STATE IN COUNCIL UNDER FUNDAMENTAL RULE 44.

1. The following shall be added at the end of Rule 5:—

"If the course of study is in Europe or America, the Head of the Department should also forward to the Secretary to the High Commissioner for India, General Department, a copy of the approved programme of study. If it is not possible for the Government servant to give full details, as above, in his original application, or if, after leaving India, he wishes to make any change in the programme which has been approved in India, he shall submit particulars as soon as possible to the Secretary to the High Commissioner for India, General Department. In such cases, he shall not, unless prepared to do so at his own risk, commence the course of study, nor incur any expense in connection therewith, until he receives approval to the course through the High Commissioner."

2. The following shall be substituted for Rule 6:—

"Government servants on leave in Europe or America who wish to convert part of the leave into study leave or to undertake a course of study during leave, should, before commencing study and before incurring any expense in connection therewith, submit a programme of their proposed course of study to the Secretary to the High Commissioner for India, General Department. The programme should be accompanied by an official certificate of the course, if one is available, and by any documentary evidence that the particular course of instruction has the approval of the authorities in India. In the absence of such evidence the programme may, if approved by the High Commissioner, be proceeded with, but no study leave allowance will be admissible until the commencement of the authority concerned in India is received."

Accordingly, Government servants on leave in the United Kingdom who desire to have it extended for purposes of study under these Rules, should submit the programme to the High Commissioner for India, but in addition to forwarding a statement of the proposed study they must submit their applications with documentary evidence of facts having obtained the approval of the authorities concerned in India to their applying for an extension of leave. No. 97.—The following resolution of the Government of India is re-enacted:—

DEPARTMENT OF COMMERCE

TABLE 1.

Received December 14, 1978

No. 1817-2 (1917).—The Government of India, having received representations from a number of persons engaged in the production of opium in India, regarding the effect of the prohibition of opium on the welfare of the producers, has decided to inquire into the subject. The following are the questions which have been referred to the Commission:

(1) What is the present position of the opium industry in India?

(2) What is the effect of the prohibition of opium on the welfare of the producers?

(3) What steps should be taken by the Government to protect the interests of the producers?

The Commission will report to the Government of India on or before the 31st March 1918.

3. The Government of India are not prepared to grant any scheme of protection which would by a heavy burden on the consumers, if the result might be, so far as the principal products are concerned, not to exceed a moderate return on the capital invested in the business but to otherwise profit unconscionably. It is possible, however, that such a scheme might be devised which would be such that could be given to those companies which are most in need of it, while at the same time a disproportionate share of the higher price paid by the consumer need not pass into the hands of the stronger firms. It is noted that the question may be examined by the Government of India and that a further enquiry should be held by the Tariff Board with the following terms of reference:—

(4) To determine what price for kerosene should be taken to be equivalent to world parity at Indian ports, and the extent to which current prices in India are below that level.

(3) To report whether it is in the national interest that protection against the dumping of imported kerosene should be given, and if so in what form and for what period, and

(4) To report whether it is likely that the price war will extend to petrol, what the consequences to the Indian producers are likely to be if it does, and in that case what measures they would recommend.

3. The question to be investigated in the inquiry is the advisability of taking steps to safeguard or reduce outflow from India, inquiry initiated by dumping, that is the sale of imported goods in India at prices below world price. In these circumstances, the Government of India consider that as detailed consideration of the merits of production will be necessary, and that it will involve materials by more summary methods the probable effect of the proposed steps on the financial position of the Indian producers. The report of the Joint Board should reach the Government of India at the earliest possible date, and in any case not later than the 1st July 1938.

4. Firms or persons interested, who desire that their views should be considered by the Tariff Board, should address their representations to the Secretary to the Board.

P. SITHANATHA,
Secretary to Government.
